Office Action Summary

Art Unit: 3726

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-34 are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over DE '544.

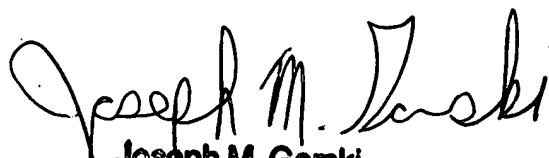

DE '544 as described in Applicants' specification appears to disclose the basic inventions as claimed by Applicant. Any differences therebetween would have been obvious to one having ordinary skill in the art.

4. In response to this Office action, Applicant is requested to submit a copy of DE '544 such that a complete and thorough examination of this application can be given.

5. Any inquiry concerning this communication should be directed to Joseph Gorski at telephone number (703) 308-1805.
